

# FACTORY VISIT

Our sourcing engineers possess in-depth knowledge and expertise in conducting a capability assessment of the factories we visit, providing valuable insights and recommendations to make informed decisions when selecting a suitable factory for your sourcing requirements. Some of the on-site analysis conducted are:

- **QUALITY ASSURANCE:** We ensure that the factory adheres to industry standards and certifications.
- **ORGANIZATIONAL STRUCTURE ANALYSIS:** We identify the factory's efficiency in terms of workflow, decision-making processes, and overall operational effectiveness.
- **PRODUCT RANGE EVALUATION:** We ensure that the factory meets your specific product requirements.
- **COMPETITIVE ADVANTAGE:** We evaluate factors such as pricing, product quality, innovation, and customer service.
- **ON-TIME DELIVERY REVIEW:** We review the factory's track record in terms of on-time delivery performance.
